

Networkable Product - 3,200 Lumens XGA DLP Projector

PJD6350

The ViewSonic networkable and wireless ready (optional) LightStream™ PJD6350 features 2x HDMI, 3,200 lumens, high resolution 4:3 (XGA 1024x768), majestic style and thoughtfully intuitive design. It also features a throw ratio of 1.51-1.97 which is ideal for replacing 3LCD projectors like EPSON, NEC, Hitachi, panasonic, Sony etc. Exclusive SuperColor™ 6-Segment Color Wheel maximises colour saturation and brightness for true-to-life image projection in any light, while exclusive SonicExpert™ speaker design powering a 10W speaker to deliver incredibly clear and audible sound. A neatly enclosed HDMI-MHL (Media High-Definition Link) compartment supports wireless media streaming from HDMI dongles or MHL connectors (like ViewSonic's WPG-300 and Google Chromecast), while a cable management hood connects onto the back of the projector to eliminate unsightly cable clutter. With horizontal and vertical keystone correction, corner adjustment, 1.3x optical zoom, and easy network management, the PJD6350 provides flexible setup.

EPSON, NEC, Hitachi (3LCD projectors) Distance Match

With a throw ratio ranging from 1.51 to 1.97, this projector is primed to replace typical 3LCD projectors (EPSON, NEC, Hitachi, Panasonic, Sony) without having to move or re-install existing ceiling mounts. Also equipped with a 1.3x optical zoom lens, this projector provides mounting flexibility with a wider throw distance range.

Optional Wireless Presentation

This projector includes a hidden compartment with an integrated and secure HDMI-MHL port that lets you discretely stream multimedia content from a wireless dongle (like ViewSonic WPG-300 or Google Chromecast), or lets you connect to other devices via an HDMI cable.

2x HDMI with 3D Support

Equipped with two HDMI ports, this projector is perfect for connecting to any HDMI-enabled device such as laptops, tablets, games consoles and DVD or Blu-ray players. It also supports 3D images directly from 3D sources.

Beautiful Design with Rear Cable Cover

With its matte hairline finish, curved edges and tactile keypad this LightStream Projector stands out from the competition. A cable cover completes the look by hiding cable clutter and exposed ports at the rear.

SuperColor™ projectors offer color accuracy levels

Conventional projectors offer low-quality images

SuperColor™ Best in Class Colour Accuracy

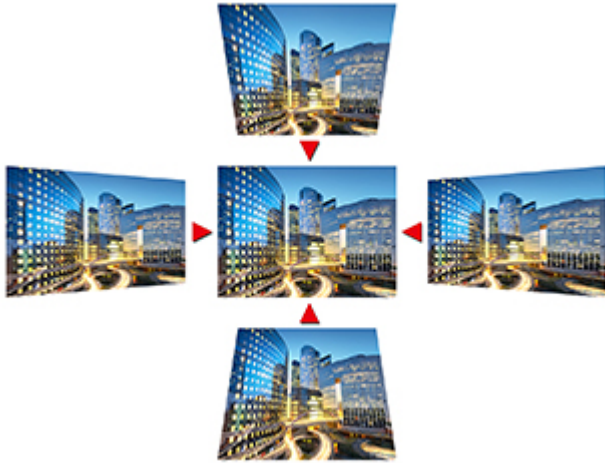

ViewSonic's proprietary SuperColour technology offers a wider colour range than conventional projectors for true-to-life colour performance in any light.

SuperColor™ 6-segment colour wheel maximizes brightness Increased by 15% or more with the highest color saturation over others in the same class.

SonicExpert Technology For Best-in-Class Sound

ViewSonic's exclusive SonicExpert technology incorporates a ported speaker chamber and a more powerful amplifier to deliver higher volume and the absolute best-in-class sound.

Easy Image Adjustments

Horizontal and vertical keystone correction and a corner adjustment feature eliminate crooked and distorted images for a perfectly proportioned picture every time.

Network Control of up to 256 Projectors

All LightStream PJD6 projectors come equipped with Crestron RoomView Express, an easy-to-use network management system that lets administrators remotely monitor and control up to 256 LightStream projectors from a single PC.

Easy Remote and App Use

A programmable “MyButton” can be configured to launch the most commonly used functions. A single remote control can also control up to eight projectors in the same venue. A Free App (called 'vRemote') also allows users to control a projector via a mobile device.
